

## Overview

Nobody likes it when the power goes out. Not you. And definitely not your provider. SmartHub makes it easy to check your service status and report service issues so everything is back up and running as quickly as possible. This document tells you how to do it from SmartHub Web.

## Check Your Status

1. Click the **My Profile** tab.

2. Click the **Outages** link on the far left.

*The Outages page appears, displaying basic information on past outages.*

3. Review your status.
  - If no issues are known about your service, only past outage information will display.

**Outages**  
If you have any existing or past outages, you can view the status below. Is your power out? [Report an Outage »](#)

**Past Outages**

Reference Number	Account	Meter
77932	3410060900	43500394
77595	3410060900	
72932	3410060900	
65527	3410060900	
63480	3410060900	
41135	3410060900	
36656	3410060900	

- If your service location is part of a known outage, you will see a message stating 'Your power is out for the following' and information about the outage will display.
