

Improve Your Home's Comfort

Save money and energy. Earn rewards!

A home energy assessment is often the first step in making your home more comfortable. By making recommended improvements identified during the assessment, you can expect to:

- Improve your home's comfort
- Reduce air leaks and temperature fluctuations
- Increase the long-term value of your home

Energy assessments are performed by certified home performance auditors who are trained to identify comfort and health issues. Upon completion of the audit, they will provide you with personalized recommendations for lowering utility bills and a more comfortable home.

PIERCE PEPIN
COOPERATIVE SERVICES

Live Better.®

A Touchstone Energy Cooperative 

One Audit, Two Ways to SAVE!

Pierce Pepin members are eligible to earn rewards through our Electric\$ense program and Wisconsin's Focus on Energy program. If you qualify, be sure to take advantage of both.
